

# Value-adding features

Organised in every last detail – Edition 2026

**schüller.**

Live. Love. Cook.

04 **OrganiQ**

Versatile drawer fittings  
made from sustainable materials.

12 **Drawer/pull-out**

Perfect inserts and solutions – for both drawers and pull-outs.

26 **Country Style**

Fittings that add value to match your Country Style kitchen.

28 **Flex-Boxes**

Create tidiness flexibly with the practical Flex-Boxes in natural oak.

34 **Panel system**

The recess is perfectly organised with the variety  
of accessories offered by the panel system.

42 **Orga Wall**

Smart accessories offer outstanding versatility for individual design.

46 **Frame Rack**

Practical furnishing options ensure a tidy and uncluttered workspace.

48 **Panel shelves**

Create storage space and bring interesting design touches  
into the kitchen or living room.

54 **Technology**

Atmospheric lighting with the timelessly elegant pendant luminaire.

56 **More than kitchen**

When the kitchen merges with the living room.

# OrganiQ Drawer equipment

**Aesthetics, arrangement and environment come together in our OrganiQ lava black interior fittings:** perfectly matching elements such as cutlery trays and functional inserts provide the ideal solution for storing porcelain, cooking utensils and food items like spice jars. Natural fibres (mainly hemp and kenaf) make up 76 % of these flexible inserts, making them particularly resource-efficient, durable and environmentally friendly.

VALUE-ADDING FEATURES  
Drawer equipment

# Drawer / pull-out equipment

**Exceptional elements for organising drawer and cabinet interiors make the perfect kitchen:** depending on individual requirements, the room becomes a professional cooking station thanks to various cutlery or functional inserts, such as for knives or spices. We also offer a solution for specific storage needs in the lower pull-outs: the inserts in elegant natural oak can be flexibly adapted to china, cooking utensils or provisions – ensuring that all kitchen tools are perfectly organised.

# Country Style elements

**The Country Style brings a natural and cosy feel to your kitchen.** The matching details complete the overall impression: those who appreciate a natural, light, feel-good atmosphere would be well advised to choose a Country Style kitchen. Above all, the special details, such as the traditional plate shelf, the curved wall brackets or various shelf elements, convey the typical style of country chic. But the Country Style elements are not only visually eye-catching, more importantly, they ensure tidiness, sufficient storage space and clutter-free work surfaces.

# Flex-Boxes natural oak

**The elegant outer appearance of the kitchen places special demands on its interior.** A continued sense of order, even where the eye does not always wander, is made possible by a modern, innovative solution for storing and sorting: the Flex-Boxes. These practical boxes can be used in many different ways and tailored to fit the units. Stackable and movable, they accommodate even the smallest items. The interstices between the Flex-Boxes also provide space for pots and pans. Flex-Boxes are also welcome helpers for tidying and arranging items in the wall units or tall units.

VALUE-ADDING FEATURES  
Flex-Boxes | General

# Panel system accessories

**The recess system – everything close at hand!** Whether knives, fresh herbs or spice jars – cooking utensils are perfectly placed wherever they are needed. The special tablet holder keeps your hands free when following a recipe. The panel system provides the opportunity to equip free spaces on the wall intelligently. A fresh touch is provided by the panel garden, a receptacle for herbs that can simply be hung in the intermediate profile of the recess profile. The optional LED lighting helps keep herbs fresh for longer and is particularly recommended in darker areas of the kitchen. The lighting is controlled by a timer that dispenses light for 14 hours – the perfect solution for urban gardeners.

		This product contains an energy efficiency class E light source.				

## Panel accessories

**Panel garden with lighting:**

This holder for plant pots is hooked into recess system's intermediate profile by means of an additional component. A special LED light helps herbs to last longer – this makes particular sense in darker parts of the kitchen. The lighting is controlled by a timer that leaves the light on for 14 hours and then switches it off for 10 hours.

# Orga Wall accessories

**Organisation down to the last detail.** Where do you put your keys, tablet or newspaper? With the Orga Wall, the kitchen becomes a workstation – the centre of life! Integrated on the support side panels to save space, the system makes perfect use of free carcase areas. The filigree panel profiles can be easily fitted with various organisational elements such as key racks, tablet holders or newspaper holders and thus serve as everyday organisational aids. Thanks to the cable box and inductive charging station, it also allows the space-saving storage of digital end devices and functions as an integrated charging facility for smartphones, tablet and the like.

# Frame Rack accessories

**The Frame Rack aluminium open shelf unit system is ideal for customised planning:** whether as a shelf for a tall unit, a base unit with plinth, a top unit or a recess, the Frame Rack stands out thanks to its wide range of individual planning options. For example, various organisational elements for an assortment of cooking utensils and aids can be inserted under the shelves. The advantages are plain to see: not only do the work surfaces remain clear but everything is also within easy reach.

# Support panel shelves

**Shelves not only create storage space,** they also add an interesting design feature to the kitchen – a nice alternative to wall units! Decorative items can take centre stage and storage space is attractively created on the shelves. This beautiful and unusual alternative helps to loosen up the overall appearance of the cooking and living area and gives the kitchen an individual look. The range of different colours and materials makes it possible to both implement homogeneous designs and create support panel top shelves in contrasting colours as strikingly eye-catching features.

# Technical equipment

**Thanks to flawless technology, the kitchen becomes a favourite room.** Filigree, dimmable LED-based pendant luminaires bring an emotional touch to the kitchen. Seamlessly height-adjustable, they serve faithfully above both the cooking island and the dining table – a nice option that adds an atmospheric feel to the room. Thanks to an intelligent control system, the light colour of the Emotion LED luminaire can be adjusted continuously from warm white to neutral white, making it adaptable to different situations.

## Technical equipment

# More than just a kitchen: the utility room

Scan the QR code  
for more information  
on the utility room.  
[www.schueller.de](http://www.schueller.de)

## KEY FACT

Whether a room in the cellar or next to the living area, the utility room is a functional place equipped for everything that a household needs. Wash, iron, store and recycle in a well-organised, ergonomic space. The specially-designed units for the washing machine, for sorting laundry and for storing cleaning appliances, supplies and shoes allow you to perfectly manage your home.

# The utility room

## Base Cabinet Shelf with Laundry Holder & Multifunctional Top Shelf with Pull-Out Tray

The all-in-one laundry cabinet combines smart features in a compact space: the multifunctional top shelf with pull-out tray and clothes rail allows for easy sorting, airing, or folding of freshly washed laundry. Additionally, the base cabinet shelf with extendable laundry holder provides practical space for drying.

## Pull-Out Base Cabinet with Dual Laundry Sorting

The practical laundry sorter features two 42-liter compartments in a space-saving base cabinet. It not only keeps dirty laundry out of sight, but also makes it easier to pre-sort by color or washing temperature—helping speed up the laundry process.

## Open End Shelf

The open tall cabinet end shelf provides space for an ironing board, broom, and vacuum cleaner. Thanks to the hook rail and optional power strip, everything is stored within easy reach, well ventilated, and ready to charge.

## Tall Cabinet Shelf for Washing Machine with Laundry Basket Tray

Ergonomic laundry care: With the washing machine or dryer positioned at a back-friendly height and the convenient pull-out laundry basket tray, doing laundry becomes quick and easy.

## Laundry Preparation Tall Cabinet for Ironing Board and Drying Rack

The laundry preparation tall cabinet keeps the ironing board, iron, and accessories not only compactly stored, but also easily accessible and ready for use—bringing more clarity and less clutter to your laundry routine.

## Lock for Cleaning Supplies Cabinet

Whether it's cleaning agents, plant fertilizer, or confidential documents—the cylinder lock for cabinets, drawers, or pull-outs ensures that everything meant to be kept out of reach stays securely locked away.

# More than just a kitchen: the pantry

Scan the QR code  
for more information  
on the pantry.  
[www.schueller.de](http://www.schueller.de)

## KEY FACT

Groceries, kitchen aids, preserves and beverages – all these things should be stored in a manner that is as space-saving, ergonomic and clearly organised as possible, ideally where they do not impair the overall appearance of the living space: in the pantry. With intelligent and extremely versatile system elements as the basis, you can design the pantry in line with your requirements – with open shelves for a clear view or practical pull-outs for everything that is best hidden away.

# The pantry

## Cleverly concealed thanks to the access door

A practical solution for those who want to bring a sense of calm into the room. The access door elegantly blocks the view into the pantry and, when closed, looks like a tall unit. As a result, it blends harmoniously into the overall picture. Thanks to the Tip-On technology, the access door can be opened easily, even when you have your hands full.

## Tall unit for bottle crates

Convenient and clear storage: by installing shelves at an angle, several bottle crates can be stored in a space-saving way depending on the unit height, and the bottles can be easily removed one by one.

## Natural oak wooden crates

Genuine eye-catchers that offer optimal storage capacity for food that does not need to be refrigerated.

## Practical pull-outs

The practical pull-outs keep your pantry looking neat and tidy while also enabling you to make full use of the available storage space, right to the very back.

## Pull-out base unit with recycling pocket for a recyclable waste bag

We have the ideal solution to answer the question: "Where does the rubbish go?". Simply insert our pull-out base unit – with practical Tip-On technology for when you don't have a free hand.

# More than just a kitchen: the wardrobe

Scan the QR code  
for more information  
on the wardrobes.  
[www.schueller.de](http://www.schueller.de)

## KEY FACT

Come on in and make yourself at home: this warm invitation should be conveyed directly in the entrance area and harmoniously complement the overall appearance of the open space. That is why we see the wardrobe as a welcoming piece of furniture and offer various planning options. Whether closed cupboard elements for clothes, mirrored doors or open units, thanks to this versatility, the entrance area can be individually designed and combines maximum storage space with functionality.

# More than just a kitchen: the working space

Scan the QR code  
for more information  
on the working  
space.  
[www.schueller.de](http://www.schueller.de)

## KEY FACT

Relocating the office to the home requires solution-oriented thinking. Consequently, the task at hand is to utilise the available space optimally. For instance, work materials disappear into the wall units with practical folding flaps and into the base units and pull-outs, which can be provided with Tip-On or even extravagant leather handles. The stylish integration of a light into the Frame Racks or wall units positioned above perfectly illuminates the work area.

# More than just a kitchen: wall combinations

Scan the QR code for more information on the living-room storage units.  
www.schueller.de

Perfectly integrated into the living space with total flexibility

Elegant frames for all multimedia devices

Plenty of room for ornaments

## Part of the room

A wall can embody so much character and flexibility. For many decades the wall combination has been one of the most popular standard furnishings in the living room. However, the era of the somewhat heavy and rustic look is long gone. Today, light and airy-looking interpretations are the trend; they can stage and frame design objects with precisely the same elegance as they do multimedia devices, which have become just as aesthetically pleasing too.

---

# More than just a kitchen: sideboards

Scan the QR code for more information on the sideboards.  
[www.schueller.de](http://www.schueller.de)

Plenty of storage space in open or closed shelving or pull-outs

Sideboards in four different widths

Choose from four different foot designs

## Modern simplicity

Harmonious order in the living space at its best. If there is a piece of furniture that combines clear lines, modern design and the greatest possible functionality it is the sideboard. It can be perfectly placed in an open, airy living space where it will provide harmony and structure and add a special touch.

---

# More than just a kitchen: The mobile occasional table

## KEY FACT

Whether for serving, as an extension to the work surface or as a bar: the mobile occasional table with its soft, lockable castors is always welcome in the kitchen. With its timeless look, a structural steel frame in elegant onyx black and customisable table top and shelf, this small, versatile piece of furniture adapts to different home living situations and needs. When it is not needed, it can be folded up and stored away to save space.
