

# INNOVATIONS 2024/25

# BORA PRODUCTS

Our holistic kitchen concept empowers people to achieve the best cooking results. Discover the BORA product categories.

①  
**BORA cooktop extractor systems**

A cooktop and extractor system rolled into one. With the modular and compact BORA cooktop extractor systems, unlimited freedom in kitchen design is guaranteed.

②  
**BORA steam cooking and baking systems**

Steam in its finest form. Steam, bake and roast like a pro with the BORA X BO thanks to the innovative Rapid Air technology. The wonderfully versatile BORA multi-drawer for keeping food warm, defrosting, low-temperature cooking and much more is the ideal optional accessory.

③  
**BORA refrigeration and freezing systems**

Perfect solutions for storing food in a well-organised and effectively chilled manner. The refrigerators, refrigerator-freezers and freezer are characterised by features such as innovative convection cooling, separate cooling circuits, No Frost technology and sophisticated components for the interior.

④  
**BORA lighting**

Minimalist design and maximum light. The BORA Horizon and BORA Stars create the perfect lighting for the broadest range of situations when cooking and dining, brightening up the kitchen as a living space in both a functional and emotional way.

⑤  
**BORA supplies and accessories**

The perfect accessories for extraordinary cooking experiences: the BORA QVac built-in vacuum sealer, the BORA Pots and Pans and many more help make this dream a reality.

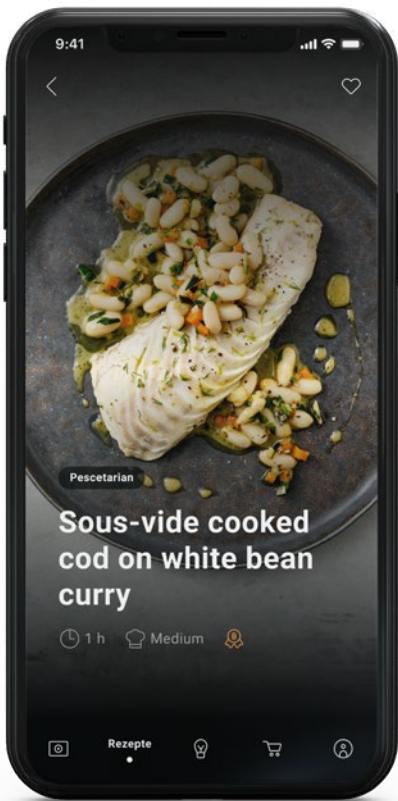

# BORA JOY

Infinite inspiration, simple appliance control and better cooking results in an app.

The BORA JOY app makes cooking easier for you every day and offers you maximum inspiration in the BORA JOY feed. Conveniently operate BORA appliances like the BORA X BO or the new BORA X Pure straight from your chosen recipe. The BORA app offers you step-by-step support when cooking as well as a wide range of everyday recipes and stories about the kitchen as a living space. Personalise BORA JOY with your specific dietary preferences or intolerances. See everything at a glance: find an overview of the status of your BORA products whenever you need it and quickly obtain assistance in the event of error messages. You can also use the app to directly order a new filter for your BORA appliance, for example.

## Wider range of BORA Assist functions

BORA JOY expands the range of BORA Assist functions: control your BORA appliances by tapping the play button in a recipe in the BORA JOY app to conveniently start functions and cooking programmes. BORA JOY also makes it possible to personalise BORA Assist on the new BORA X Pure. In addition to Boil and Fry, up to three more Assist functions of the user's choice can be additionally stored, modified and deleted using the app. Some of the automated programmes on the BORA X BO have QR codes linked to recipes. These recipes are only displayed in BORA JOY.

## Recipes linked to products

Choose the right recipe and the perfect settings every time – custom tailored to your BORA appliance – for even better cooking results. You can store your BORA products in the BORA JOY app. When cooking, product-specific settings and cooking steps are automatically integrated into the selected recipe.

\*Currently for the BORA X Pure and BORA X BO

## Maximum inspiration with the BORA JOY feed

More than cooking. The BORA JOY feed opens the door to the world of BORA, providing recipes, pro tips and stories as well as information about the entire BORA product world.

## Appliance status overview

Current activities or active settings – the appliance status of all BORA appliances with an Assist function can be viewed at any time.

\*Currently for the BORA X Pure and BORA X BO

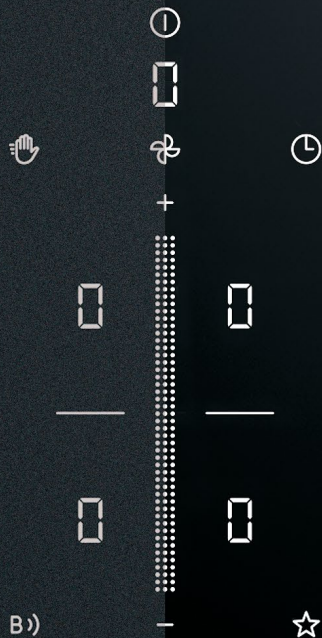

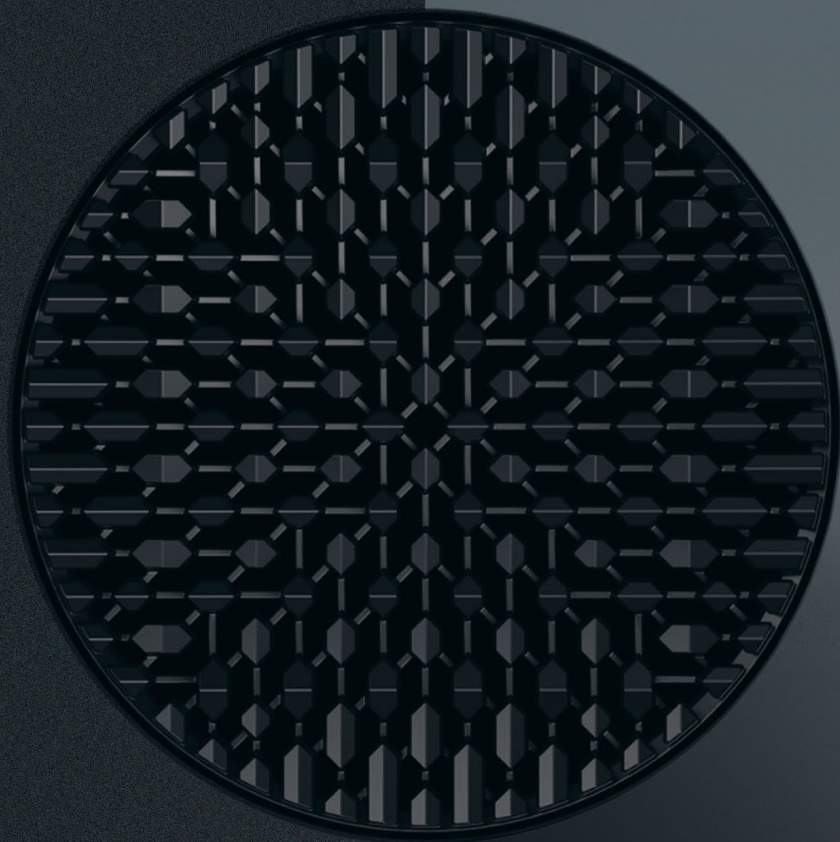

Available for  
delivery from  
03/2025

X Pure Rough

Available for  
delivery from  
11/2024

X Pure

# BORA X PURE

The minimalist cooktop extractor system with maximum cooking space and BORA Assist.

Available to order from 09/2024

## Two versions: matt and high-gloss glass ceramic

The BORA X Pure is available in two versions: with a high-gloss or matt glass ceramic finish. The extractor is flush-mounted to the cooktop and concealed under the iconic air inlet nozzle with a pin design. The high-gloss glass ceramic looks impressively elegant in any kitchen. The modern, matt glass ceramic of the BORA X Pure Rough version is less susceptible to visible scratches and fingerprints.

## BORA Assist for simpler cooking experiences

With the BORA X Pure, BORA Assist makes cooking simpler than ever. In combination with the BORA Pots and Pans Assist range and the BORA grill pan, the functions Fry (with temperature-specific settings) and Boil (as a replacement for a kettle) can be used directly on the cooktop.

## Practical controls with BORA JOY

The range of BORA Assist functions is expanded through the use of the BORA JOY app. This can be used to select and start preset processes such as boiling pasta, steaming vegetables or cooking egg dishes. BORA JOY can only be used to control the BORA X Pure in conjunction with the BORA Pots and Pans Assist range and the BORA grill pan.

## X Pure exhaust air/recirculation

X Pure (high-gloss glass ceramic): Product no.: PUXA2 / PUXU2  
X Pure Rough (matt glass ceramic): Product no.: PUXU2R / PUXA2R  
Dimensions: 830 × 515 mm

**X Pure air inlet nozzle**  
Product no.: PUXED2

## Oversized surface induction cooking zones

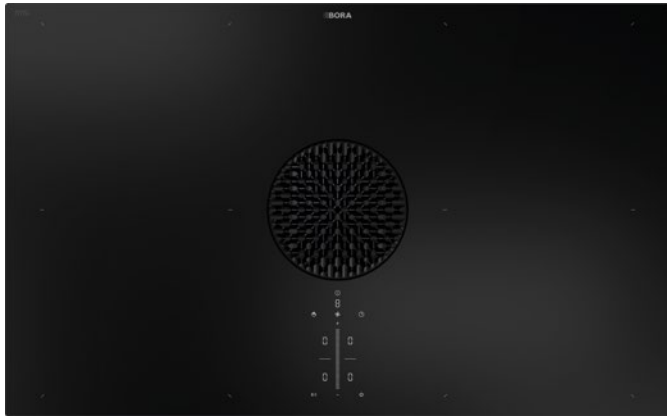

The entire surface can be optimally used when cooking thanks to the extra-large surface induction cooking zones measuring 230 x 230 mm or 230 x 460 mm. This makes it ideal for anyone who frequently cooks with large pieces of cookware or uses several pots and pans at the same time.

## Even more intuitive operation

The BORA X Pure can be controlled using the tricoloured sControl+ touch panel. This makes it easy to differentiate between the different control settings. The intelligent cleaning lock automatically detects the length of time during which the cooktop is being cleaned and only deactivates at the end of this period. The bridging and automatic pan size recognition functions have been optimised.

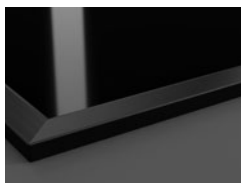

## Distinctive design

The cooktop and extractor are completely flush-integrated. The striking design features expressive lines coupled with the iconic air inlet nozzle in a pin design, surrounded by endless black. When in use, the operating panel catches the eye with tricoloured lighting accents.

## Cooktop frame

Width 830 mm: Product no.: KFR830AB  
Width 760 mm: Product no.: KFR760AB  
Width 580 mm: Product no.: KFR580AB

# BORA X BO

The professional steam oven for your home.

**A premium design with a large touch display**

Jet black and elegant. Precisely contoured yet confidently restrained: the BORA X BO is characterised by high-quality glass surfaces, multi-level lighting in the stainless steel oven chamber and an operating concept that dispenses with knobs and handles in favour of a large, 19-inch touch display.

**Pre-set programmes and perfect cooking results on all levels**

Perfectly designed pre-set programmes enable particularly uniform cooking results and make it easier to switch from a conventional oven to cooking with steam and hot air. For perfect results every time, even when cooking on all three levels.

**Fully automatic intensive cleaning**

The fully automatic cleaning programme makes even cleaning a cinch. The appliance is cleaned and dried automatically – all you have to do is screw the environmentally friendly, recyclable cleaning cartridge into the centre of the oven rack.

**Automatic steam extraction & effective odour filtration**

BORA Smart Open automatically extracts the steam from the oven chamber before the door is opened – so it will no longer fog up unit fronts or hit you in the face. The odour filter also neutralises unpleasant odours. Changing the filter is extremely easy.

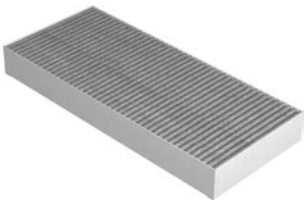

**X BO steam oven**  
Dimensions (W × H × D): 598 × 599 × 580 mm  
With mains water connection  
Product no.: XBO

Product no.: XBOAFB

# BORA COOL COMBI XL

Refrigeration and freezing made simple – with an extra-large refrigerator compartment.

Available to order from 09/2024

**Maximum refrigerator capacity**

The BORA Cool Combi XL features an impressive appliance height of 194 cm to offer about 30 l more capacity than refrigerator-freezers with a height of 178 cm. Discreetly concealed behind the kitchen front, the space is optimally used for refrigeration. This enables you to easily store and refrigerate even large receptacles, containers and items of food in a neat and tidy manner. Despite its greater height, the BORA Cool Combi XL still fits into standard-width kitchen niches.

**More flexibility for storage**

The BORA Cool Combi XL offers more opportunities to insert glass plates or tinned foods storage shelves. This provides even greater flexibility when partitioning up the refrigeration compartment. There is plenty of room for items of any size to be stored in a neat and tidy manner.

**Mix-and-match accessories**

The larger refrigerator compartment offers more space for individual accessories, such as an extra BORA multi-use spiked mat or more sorting tubs, available for purchase in addition to the regular features packages. This enables optimum usage of the space available.

**Large freshness compartment**

In the freshness compartment of the BORA Cool Combi XL, even more foods can stay fresher longer. BORA Fresh zero divides the interior into two zones: a refrigerator area and a storage area. With temperatures of close to 0°C and moisture regulation thanks to the special covers on the BORA Fresh zero trays, our freshness system optimally stores food for a long time.

**Effective BORA Cool odour filter**

The newly developed BORA Cool odour filter with its distinctive red design and integrated activated charcoal core reduces even powerful odours in the refrigerator compartment thanks to the compact filter unit’s extremely large airflow area. The indents on the sides of the filter make (annual) filter changes child’s play.

Available for delivery from 12/2024

**Cool refrigerator-freezer XL**  
· Particularly quiet: 34 dB(A)  
· Capacity: 275 litres  
· Dimensions (H x W x D): 1,940 x 559 x 546 mm  
Product no.: C194KG

**BORA Cool odour filter**  
Retrofittable for existing BORA refrigeration systems (C178K, C178KGF, C178KG, C178KGW)  
Product no.: KGF

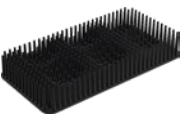

**BORA Best features**

The accessories in the BORA Best features package make cooking and storing food an extraordinary experience. The practical accessories impress by enabling your refrigerator to offer even better organisation and even greater functionality. Food can be easily transported in the premium-quality BORA accessories – ideal for breaks in the office or outings with your nearest and dearest. The premium accessories that are everything but predictable.

# BORA POTS AND PANS

Available for  
delivery from  
10/2024

Professional cookware for all occasions.

Available to order since 04/2024

## BORA tiltable lid

Designed to ensure optimum steam extraction on cooktop extractor systems, the BORA tiltable lid can be tilted at different angles when cooking. It can be opened or closed in a single step. When open, the BORA tiltable lid effectively channels the steam straight into the BORA cooktop extractor.

## Measuring scale

The measuring scale on the inside of the pots makes it easy to measure liquids and eliminates the need for a separate measuring jug.

## 5-ply stainless steel design

All items in the BORA Pots and Pans cookware range are made in one piece, with no added base layer, to make heat distribution as even and efficient as possible. The 5-layer structure consisting of two layers of stainless steel and three layers of aluminium ensures that the cookware is heated evenly.

## Ergonomic, stay-cool handles

The handles on our BORA Pots and Pans have been meticulously designed for comfort even when pans are full. The handles do not overheat during cooking. The gap between the handles and the pot and braising pan bodies has been designed to prevent the risk of burns.

## All Black silicone and polyester coating

The outer silicone and polyester coating gives the BORA pots and pans an elegant black finish. The coating stands out for its scratch resistance and robustness. It is unique in terms of quality, matt finish and colour.

## 7-piece pot set

- 24 cm pot with BORA tiltable lid
- 20 cm pot with BORA tiltable lid
- 16 cm pot with BORA tiltable lid
- 16 cm saucepan

Product no.: KWPAP1

## 2-piece pan set

- 24 cm frying pan
- 20 cm frying pan

Product no.: KWPAP2

## Braising pan

28 cm

Product no.: KWPAP3

# BORA POTS AND PANS ASSIST

Available for  
delivery from  
03/2025

Professional cookware for supported cooking.

Available to order from 09/24

## BORA Assist for simpler cooking experiences

The BORA Pots and Pans Assist range is perfect for use with the BORA X Pure in conjunction with BORA Assist. This makes cooking with BORA even simpler than ever. The Fry (with temperature-specific settings) and Boil (as a replacement for a kettle) functions can be used directly on the cooktop. The range of BORA Assist functions is further expanded through the use of the BORA JOY app, which can start additional pre-set cooking functions. The BORA Pots and Pans Assist range can also be used on all other BORA cooktops. The pots in the BORA Pots and Pans Assist range come with a specially designed steamer insert.

## BORA tiltable lid

Designed to ensure optimum steam extraction on BORA cooktop extractor systems, the BORA tiltable lid can be tilted at different angles when cooking. It can be opened or closed in a single step. When open, the BORA tiltable lid effectively channels the steam straight into the BORA cooktop extractor.

### Assist 5-piece pot set

- 24 cm pot with BORA tiltable lid
- 20 cm pot with BORA tiltable lid
- Steamer insert

Product no.: KWPAP4

### Assist frying pan

24 cm

Product no.: KWPAP5

### Assist braising pan

28 cm

Product no.: KWPAP6

## Ergonomic, stay-cool handles

The handles on the BORA Pots and Pans Assist have been meticulously designed to be pleasant and easy to hold even when the pots and pans are full. The handles do not overheat during cooking. The gap between the handles and the pot and braising pan bodies has been designed to minimise the risk of burns.

## Premium materials and subtle pouring rim

All of the cookware in the BORA Pots and Pans Assist range is made from robust, durable single-ply stainless steel and features a capsule base. Thanks to the premium materials and the structure, the heat is evenly and efficiently distributed. The subtle pouring rim is a visual highlight and makes it easy to decant liquids without spilling them.

# BORA BOOK SERIES

Check out the exclusive BORA ‘Food’ book series to find out more about the kitchen as a living space and become an expert in both cooking and hosting – whether on an everyday basis or for special occasions, dining alone or in larger groups, enjoying meat, fish or vegetables or drinking water, wine or cocktails. Join us on a culinary journey that covers all the different facets of planning, cooking, storing and presenting food and drinks. With practical examples, specific tips and a wealth of expertise, the ‘Food’ book series offers you plenty of input to help you realise your culinary dreams. Immerse yourself in the world of tantalising flavours and discover the joy of cooking, planning and presenting food – each and every day.

Volume 1 marks the start of your culinary journey and covers everything you need to know about efficient and stress-free meal planning and preparation: basic information about healthy eating and various dietary approaches as well as helpful tips on how to integrate this knowledge into your everyday life. Discover how

careful meal planning can make your life easier – whether cooking for yourself, your family, friends or guests, on an everyday basis or for special occasions.

With handy guides on how to create weekly meal plans and plan celebrations plus tips on efficient grocery shopping, food storage and the creative use of leftovers, this book is the perfect everyday companion. It naturally also offers a varied range of recipe ideas that can be easily adapted to any personal schedule, such as mushroom risotto with beef strips, chicken breast with couscous salad or trout fillet and baby spinach.

### For relaxed experiences when cooking and dining.

The remaining volumes of BORA’s new five-part book series (‘Cooking food’, ‘Enjoying food’, ‘Storing food’ and ‘Accompanying food’) offer even more recipe ideas and tips.

Available for delivery from 09/2024

### Order now

The premium hardback books are available individually or as a bundle from the BORA PartnerNet [partner.bora.com](https://partner.bora.com) or the BORA shop [shop.bora.com](https://shop.bora.com)

# BORA HERFORD

### BORA Academy training site

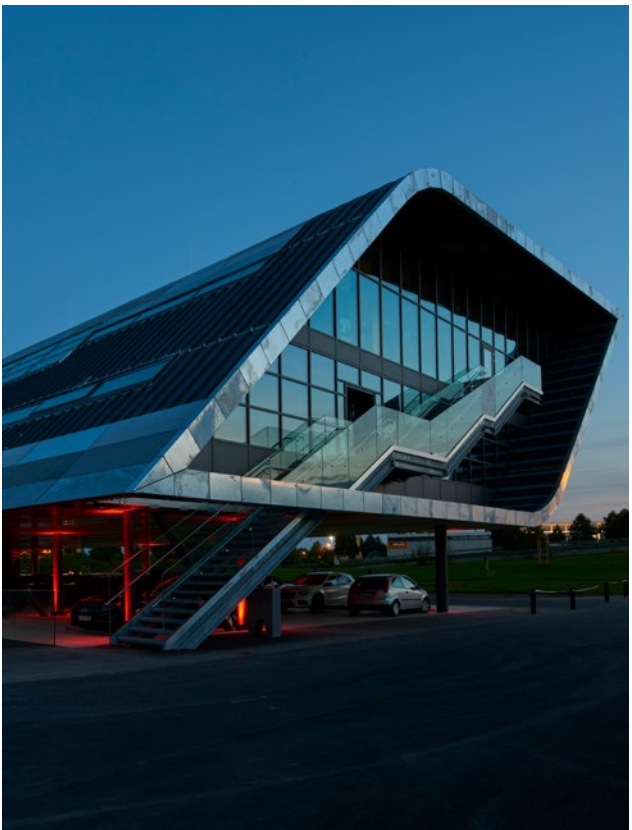

Our BORA Herford training site in the heart of the kitchen furniture industry first opened its doors in 2023. We use this to convey our expert knowledge to you in a fun, lively and professional manner with a healthy mix of theory and practice. Training at the Herford site in East Westphalia primarily focuses on new products, installation and sales.

For training dates, please visit [academy.bora.com](https://academy.bora.com) or contact your area sales manager directly.

### BORA Flagship Store

The BORA Flagship Store in Herford offers your customers personal product consultations and BORA Cooking Experiences from Monday to Saturday, 10 a.m. – 6 p.m.
